Welcome

to the 3rd Entreled Newsletter!

The Entreled project is moving forward with exciting progress and collaborative activities! Since December, we have completed several key steps in preparation for the piloting phase of our educational tools for VET learners and teachers. In this issue, we are happy to share updates on:

Completion of internal testing

Finalisation and translation of the educational games and e-learning course

The partner meeting and teacher training in Spain

The official launch of the piloting phase

Finalisation of the project's tools

The internal testing phase of the Entreled digital educational games and e-learning course has been successfully completed. Following final improvements, all materials have now been translated into Greek, Spanish, Italian, and Lithuanian, making them fully accessible for the piloting phase in all partner countries.

The 5 educational games and the eight-module asynchronous e-learning program for VET teachers are now available online and ready to be implemented in classrooms!

Partner Meeting & VET Teacher Training in Bilbao

From 31 March to 2 April 2025, the Entreled partners gathered in Bilbao, Spain, for a 3-day joint event: a transnational partner meeting and a training activity for VET teachers.

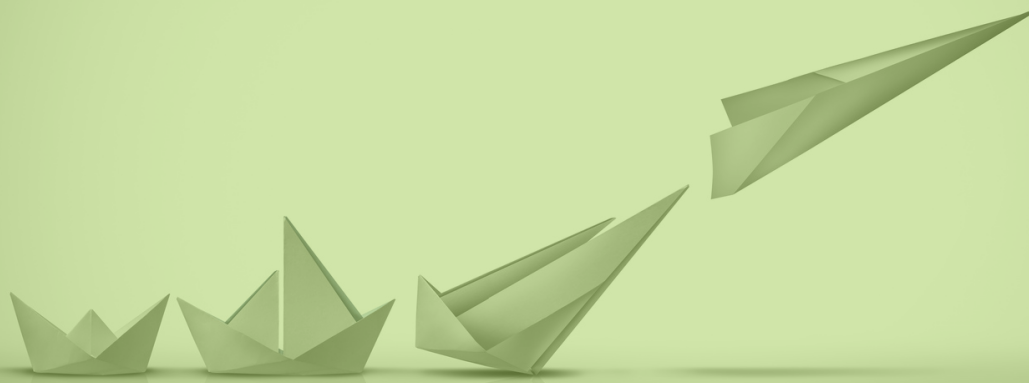

During the training, VET teachers explored the Entreled digital games and e-learning course in depth, exchanged ideas, and shared feedback on how to integrate the tools into their teaching practice. The partners reviewed the feedback and made final preparations for the launch of the piloting phase.

your VET potential

Piloting Phase: Now Underway!

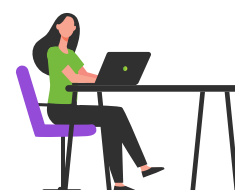

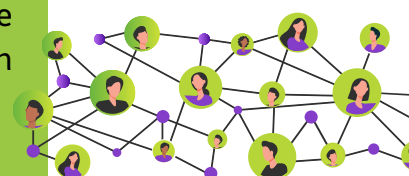

The Entreled piloting officially started on 12 May 2025 and will run until 31 May 2025.

During this period:

- VET learners are invited to play the games and complete short evaluation forms.
- VET teachers are encouraged to follow the e-learning course, use the games in their classrooms, and provide feedback through targeted evaluation forms.

The results of the piloting will be used to further improve the quality, relevance, and inclusivity of the Entreled tools.

To participate in the piloting or access the evaluation forms, visit our website: <https://entreled.eu/results/>

What's next?

The ENTRELED project moves into its final and most impactful stage. Here's what's coming next:

Finalisation of Deliverables

Based on the feedback collected during the piloting, the final versions of the digital games and the e-learning course will be improved and prepared for open, long-term use.

Multiplier Events in all partner countries

Between June and August 2025, all partners will organise national Multiplier Events to present the project results to a wider audience of VET teachers, policy makers, education stakeholders, and training organisations.

Project Achievements and Milestones

09.2023

We set off!

Entreled project started in September 2023 with a duration of 24 months

02.2024

Brand identity is complete!

The website and social media platforms are now live!

06.2024

Games' scenarios are ready

All partners updated digital games scenarios after comments in Florence meeting.

10.2024

Educational materials for the e-learning course are completed!

Development of the platform to host the e-learning course is underway.

03.2025

Translations completed in all partner languages

The tools are ready for the training activity.

05.2025

Piloting phase launched

Final tools ready for the piloting in all partner countries.

11.2023

Kick-off Meeting

In Vilnius, Lithuania on November 20-21, 2023.

05.2024

2nd Partner Meeting

In Florence on May 16-17, 2024.
The digital games in the spotlight!

09.2024

First version of the games

Internal testing of the games begins to finalise adjustments before piloting.

01.2025

Games and e-learning course are ready in English

Full versions finalised after internal testing.

31.03-02.04.2025

Partner Meeting and VET Teacher Training Activity

A 3-day event held in Bilbao, Spain.
